

HANDS-ON MINI ACTIVITY FOR KIDS

# WHAT'S THAT SHAPE?

## 01

Parent Prep: Gather 8-12 household objects/toys. Trace the outline of each object on a piece of paper with a marker.

## 02

Give your child the paper and all the objects that you traced. Encourage them to match each object to the correct outline, like a puzzle.

## 03

Say the name of each object as your child places it in the correct spot to build vocabulary.

## 04

This activity can be done again and again. Just gather new objects and repeat Steps 1-3. Older children can create their own "puzzles" by tracing objects on their own.
