

Red Stuff Bin

- *Supplies:*
 - *Sensory Bin*
 - *Anything Red*

Create a Red Color Bin this week! Start with adding red items into the bin on day one but then extended this activity as follows.

- *Make a fun game out of it each day to have your child find more red things to add to the bin.*
- *Go on a red scavenger hunt around the house*
- *When on a walk, find “red” items on your journey – either to point out or to pick up and add to the bin*
- *Now that you have worked on one color, imagine how many different colors you can do to keep this activity going! Yellow Bin, Blue Bin, Green Bin – the fun is endless!*
